# LET'S GET TOGETHER

## OUR MISSION AND VISION

The aim of our renovation of this historic building was to create a beautiful space full of historic charm along with all of the amenities that modern couples want in their venue. Brides, Bridesmaids, Grooms, Families, all have incredible, custom designed spaces for their entire day.

Keeping the historic integrity of the space was vital - but so was incorporating some major changes and upgrades!

Every step of a couple's big day was taken into consideration during the renovation process - from getting ready, taking photos, to ceremony & reception, all the way through the big send-off

# OUR STORY

## HISTORY

Built in 1922, this property was home to the Versailles United Methodist Church for nearly 100 years before our renovation story began in March 2018.

Pulling inspiration from La Galerie des Glaces in Versailles, France, and from the beautiful original moldings and architecture, we were determined to keep the property's rich history alive, while including updates that would fit the needs of modern couples.

After months of breathing new life into the old structure, The Galerie opened its doors October 2018 with the wedding of our owners Jessica & Jordan.

Since that day, we've been blessed to be a part of some of the loveliest celebrations, and have made it our passion to bring your dream wedding to life.

*Oh. My. Goodness. Our wedding was absolutely perfect.*

- Jennifer, Summer 2019
